

IEEE 600V Bushing CT

Type B07

600 Volt, 10 kV BIL
Cast resin
Outdoor with secondary conduit termination box
Meet requirements of IEEE C57.13
For mounting over HV bushings

Taped and Varnished

600 Volt, 10 kV BIL
Meet requirements of IEEE C57.13
For mounting over HV bushings in oil atmosphere
Secondary leads or terminals to customer specifications
Consult factory for quotation

Board Mounted

600 Volt, 10 kV BIL
Taped construction mounted on insulated board
Dimensions per customer specifications
Indoor with secondary conduit termination box
Meet requirements of IEEE C57.13
For mounting over HV generator bushings
Available as ATEX Certified Group II , Category 3, Zone 2
[Ex nA II C 135 (T4)]

Cast Resin

600 Volt, 10 kV BIL
Cast resin
Dimensions per customer specifications
Indoor / outdoor with secondary conduit termination box
Meet requirements of IEEE C57.13
For mounting over HV bushings
Consult factory for quotation

Taped Construction

600 Volt, 10 kV BIL
Meet requirements of IEEE C57.13
For mounting over HV bushings
Secondary leads or terminals to customer specifications
Consult factory for quotation
